1996

I am a quick learner with good motivation. I possess a good degree of intelligence, a lot of common sense and have a mature outlook on life. I have a creative mind and will persevere with a task until I am happy with the result. I've also been told that I make a mean cup of tea!

Career Aims

I am planning to move into a career in the creative elements of animation, film or game development. I have just completed a Level 6 Multimedia & Web Development course in Limerick, and in March 2015, I was nominated for an SMedia Award in the short animation category.

Education

2009 - 2012 - Junior Cert, Colaiste Ide Agus Iosef, Abbeyfeale
2012 - 2014 - FETAC Level 4 Technology, Tralee Community Training Centre
2014 - 2015 - FETAC Level 6 Multimedia Production, Limerick College of Further Education

Leisure Interests

I spend some of my spare time working on my own creative projects. I enjoy the challenge of finding out how to do/create something on the computer and achieving an end result. I have recently taken up photography and I am enjoying learning how to take more professional photographs. I play electric/bass guitar, and also enjoy listening to music. I adore animals and admire all of nature in general... except spiders. I also enjoy camping, reading, writing, drawing and games.

Work Experience

2013 - 2014 - Tralee Printing Works - One month of Graphic Design work experience
2013 - 2014 - The Dog Hotel - One week of animal care and dog grooming work experience, which led to a part time job.
2014 - Part time Graphic Design and retail work with Adrenalin Sports, Abbeyfeale
